Summary

Aspiring Data Analyst and fourth-year BSIT student with knowledge of SQL, Excel, and Power BI. Experienced in data cleaning, analysis, querying, and dashboard creation through academic and personal projects. Seeking an entry-level opportunity to apply my skills and contribute to data-driven decision-making.

Education

Quezon City University Novaliches, Quezon City
Bachelor of Science in Information Technology. 2023 - Present

Experience

Enov8tive Technology Solution Inc. McKinley West, Taguig
HR Analytics and Data Intern August 2026 – September 2026

- Developed HR dashboards to track key metrics such as employee headcount, attendance, and absenteeism, providing HR staff with clear and accessible workforce insights.
- Cleaned and standardized HR data by correcting inconsistent formats and organizing unstructured information into accurate, structured datasets.
- Automated repetitive HR recruitment tasks using Google Apps Script, reducing manual work and improving the efficiency of routine HR processes.

Teleperformance Vertis North, Quezon City
Operations Customer Expert I June 2025 – September 2025

- Diagnosed and resolved customer technical issues involving Wi-Fi connectivity, network outages, modem setup, and service disruptions, improving first-call resolution and customer satisfaction.
- Provided step-by-step troubleshooting and technical guidance to customers, ensuring timely issue resolution while maintaining high standards of customer service.
- Documented and escalated complex technical cases to higher-level support teams when necessary, enabling efficient case tracking and minimizing service downtime.

Projects

Bike Sales Dashboard
(Kaggle's Data: Bikes Sales on Europe)

- Cleaned and prepared a bike sales dataset in Microsoft Excel, then developed an interactive Power BI dashboard to track revenue, profit, cost, profit margin, and transactions using DAX measures and dynamic filters.
- Designed interactive visualizations, including customer purchase activity, revenue by country, and product category sales, to make sales trends and business performance easier to understand.

Skills & Language

Technical Skills:

Microsoft Excel: PivotTables, dashboards, XLOOKUP, IF/IFS, SUMIFS, COUNTIFS, conditional formatting, charts, data cleaning
SQL: Joins, GROUP BY, ORDER BY, aggregate functions, subqueries, Common Table Expressions (CTEs), window functions, filtering, data analysis
Microsoft Power BI: Interactive dashboards, data modeling, Power Query, basic DAX, data visualization.
Git: Basic version control, cloning repositories, commits, branching, pushing and pulling changes.
Kiro: AI-assisted software development, code generation, debugging, and project scaffolding.

Language: Filipino and English
